Executive summary

Overall −4%, against +9% last period; the interval crosses zero, so the reading is weaker, not clearly negative; negatives centre on T60 reliability and parts in comment sections, while coverage still leans positive

For reference only. Not an official brand view

Overall

Excluding content from the brand and its dealers, organic net sentiment is −4% (±5.4%, 632 items), against +9% last period.

TikTok −20%, Reddit −35%; news +14%, YouTube +12%. Europe: 187 items at −11%.

Sources of negative sentiment

Quality and reliability: 66 negative vs 15 positive (19 vs 15 last period); Chile accounts for 21, on the T60's engine, DPF and gearbox.

Poland −55%: comments under an eDeliver 5 winter-range video cite slow charging and short range.

Under dealer videos in Kenya and Saudi Arabia, comments set the D90 against the Prado and say parts cannot be found.

Priority actions

Chile: review warranty records for the T60 parts concerned and give a service contact under official posts.

Europe: publish measured winter range and charging power for the electric vans.

Saudi Arabia and Kenya: publish stock and lead times for common parts.

Net sentiment

Of 632 items this period, 139 are positive and 162 negative: (139 − 162) ÷ 632 ≈ −4%. ± denotes the 95% interval in percentage points and reflects sampling variation only, not labelling error; groups under 30 items are reported without assessment.

Scope

Content published 17 Oct – 14 Nov 2026, by publication date. Comments are grouped by parent thread for event and concentration analysis; net sentiment and intervals are still computed item by item. 52 items have no identifiable market and are excluded from market figures only. Market coverage was widened and TikTok, Instagram and Facebook were added, so comparison with last period is directional only. Markets marked * are under 30 items and listed only. There is no like-for-like competitor benchmark and no store-review data this period.

Market notes

Poland: 78% of negatives come from one eDeliver 5 long-distance video, on slow charging and short winter range. Kenya: 60% come from one dealer video setting the D90 against the Prado. Chile: negatives are spread across several TikTok videos, on the T60's engine, DPF and gearbox. Australia: a G10 Plus gearbox fault left unanswered. Peru: reviews of the newly launched T70 lean positive.

Recommendations

Handle the T60 reliability complaints in Chile first, then add parts supply and electric-van range information

For reference only. Not an official brand view

	Recommendation	Basis
1	Chile: review warranty records for the T60's DPF sensor line, gearbox and engine and give a service contact under official posts. Australia: follow up the G10 Plus gearbox complaint and state the cover for frame corrosion	Quality and reliability: 66 negatives, 21 from Chile
2	Saudi Arabia and Kenya: publish stock and lead times for common parts and rely less on direct D90–Prado comparison; in thinly served markets such as Denmark, publish service commitments	Parts and repair: 21 negative vs 4 positive; brand reputation 49 vs 27
3	Electric vans in Europe: publish measured winter range and charging power for the eDeliver 5 and eDeliver 9 and answer fleet drivers on charge loss and spare lights	Poland −55%, 78% of negatives from one video

NEXT **Next issue: track whether T60 reliability comments in Chile continue and whether European markets reach enough items to judge.**

Data limitations

The overall interval of ±5.4% crosses zero, so only a weaker reading can be stated; six markets reach 30 items, and comparison with last period is directional only

For reference only. Not an official brand view

Sample size

Overall interval ±5.4%; markets and models under 30 items are listed without assessment.

52 items have no identifiable market and are excluded from market figures only.

Negatives in Poland and Kenya are dominated by single threads; eDeliver 5 content is counted under the eDeliver 3 entry.

Sentiment labels

Labels have not yet been checked against a human-annotated benchmark; no accuracy figure is published.

Intervals are computed item by item and ignore correlation among comments in one thread and labelling error.

Coverage

Market coverage was widened and TikTok, Instagram and Facebook were added this period.

No like-for-like competitor benchmark or store-review data this period.

Claims about litigation and fires come from user comments and are unverified.

READING RULES **Where two 95% intervals overlap, no ranking is drawn; groups under 30 items are listed only; item counts are not share of voice.**
